## SUMMARY

---

Dynamic Front-End developer skilled in Java, JavaScript, React, and more. Passionate about crafting user-centric experiences and driving innovation. Eager learner committed to delivering impactful solutions for organizational success.

## EDUCATION

---

### Geekster — Geekster Coding Bootcamp

*Completed intensive training in Full-Stack Development at Geekster Coding Bootcamp.*

*Jul. 2023 – Jan 2024*

### B. P. MANDAL COLLEGE OF ENGINEERING

*Bachelor of Technology in Computer Science*

*Aug. 2018 – May 2022*

## EXPERIENCE

---

### Teaching Associate (HTML, CSS, JavaScript)

Oct 2023 – Dec 2023

*Associate Teacher (Part-time)*

*Gurgaon, Haryana, India (Remote)*

- Supported 40+ students with assignments in HTML, CSS, JavaScript, and Data Structures.
- Provided guidance and assistance in understanding and implementing HTML, CSS, and JavaScript concepts.

## PROJECTS

---

### Currency Converter [\[Link\]](#) HTML, React, Tailwind CSS, Javascript

December 2023 – Present

- \* Developed a front-end web application using React, interacting with an external API.
- \* Implemented functionality for swapping currencies and selecting currency types to retrieve data.
- \* Visualized currency amounts to display their corresponding values in the chosen currency.
- \* Provided a comprehensive list of currencies through an API, allowing users to convert between different currencies.

### E-Card [\[Link\]](#) HTML, CSS, JavaScript, ReactJs, BootStrap, Toastify, Router

March 2024 – March 2024

- \* Developed a fully functional E-commerce website using ReactJS, demonstrating proficiency in modern front-end technologies.
- \* Implemented category filters in the navigation bar, enabling users to sort and view products by electronic device types (mobiles, laptops) and price ranges.
- \* Utilized Toastify for engaging notifications, enhancing user engagement and feedback.
- \* Integrated Bootstrap for responsive design, optimizing accessibility across devices.

### Hot Gadgets [\[Link\]](#) HTML, CSS, Javascript

Sept 2023 – Oct 2023

- \* Developed a front-end web application showcasing mobile details through an API.
- \* Implemented a "Show Details" button to display specifications for individual phones.
- \* Added search functionality to find and display specific phones easily..
- \* Designed a user-friendly website with a captivating hero, navbar, and polished footer.

### Real-Time Chat Application [\[Link\]](#) HTML, CSS, JavaScript, Node.js, Socket.io, Nodemon

Dec 2023 – Jan 2023

- \* Developed a real-time chat app with Node.js and Socket.io for instant communication.
- \* Used Nodemon for seamless development with automatic server restarts.
- \* Created a responsive UI with HTML and CSS, ensuring an intuitive user experience.
- \* Enabled multiple users to chat simultaneously within a single group and ongoing feature enhancements.

## TECHNICAL SKILLS

---

**Languages:** Java, JavaScript, HTML/CSS, ES6++

**Frameworks/Libraries/Databases:** React, Tailwind CSS, Node.js, Express.js, MongoDB, BootStrap, Toastify, Nodemon, React Router, Redux, MySQL

**Developer Tools:** Git, VS Code, Visual Studio, IntelliJ, Eclipse

**Other Skills:** API Integration, Responsive Design, UI/UX Design, Front-end development, Web development, Integrated development environments (IDEs)

**Soft Skills:** Team Management, Risk Taking, Planning and Critical Thinking, Relationship Building, Collaboration
